

# INDUSTRIAL ETHYLENE OXIDE STERILIZATION

**“Biggest In The World” With 62,5 m<sup>3</sup>**

1-5-10-15-20-34-62,5-100 m<sup>3</sup>  
Standart Production Volumes  
High Technology, Pre-conditioning,  
Gassing, Aeration In  
**One Chamber**  
SCADA Process Control

*We Produce For Your Health*  
**TEKNOMAR®**

# TEKNOMAR® Group

*Since 1993*

## ETHYLENE OXIDE SUTURE STERILIZATION

High Technology,  
SCADA Process  
Control,  
Pre-conditioning,  
Gassing,  
Drying,  
Aeration In  
**One Chamber**

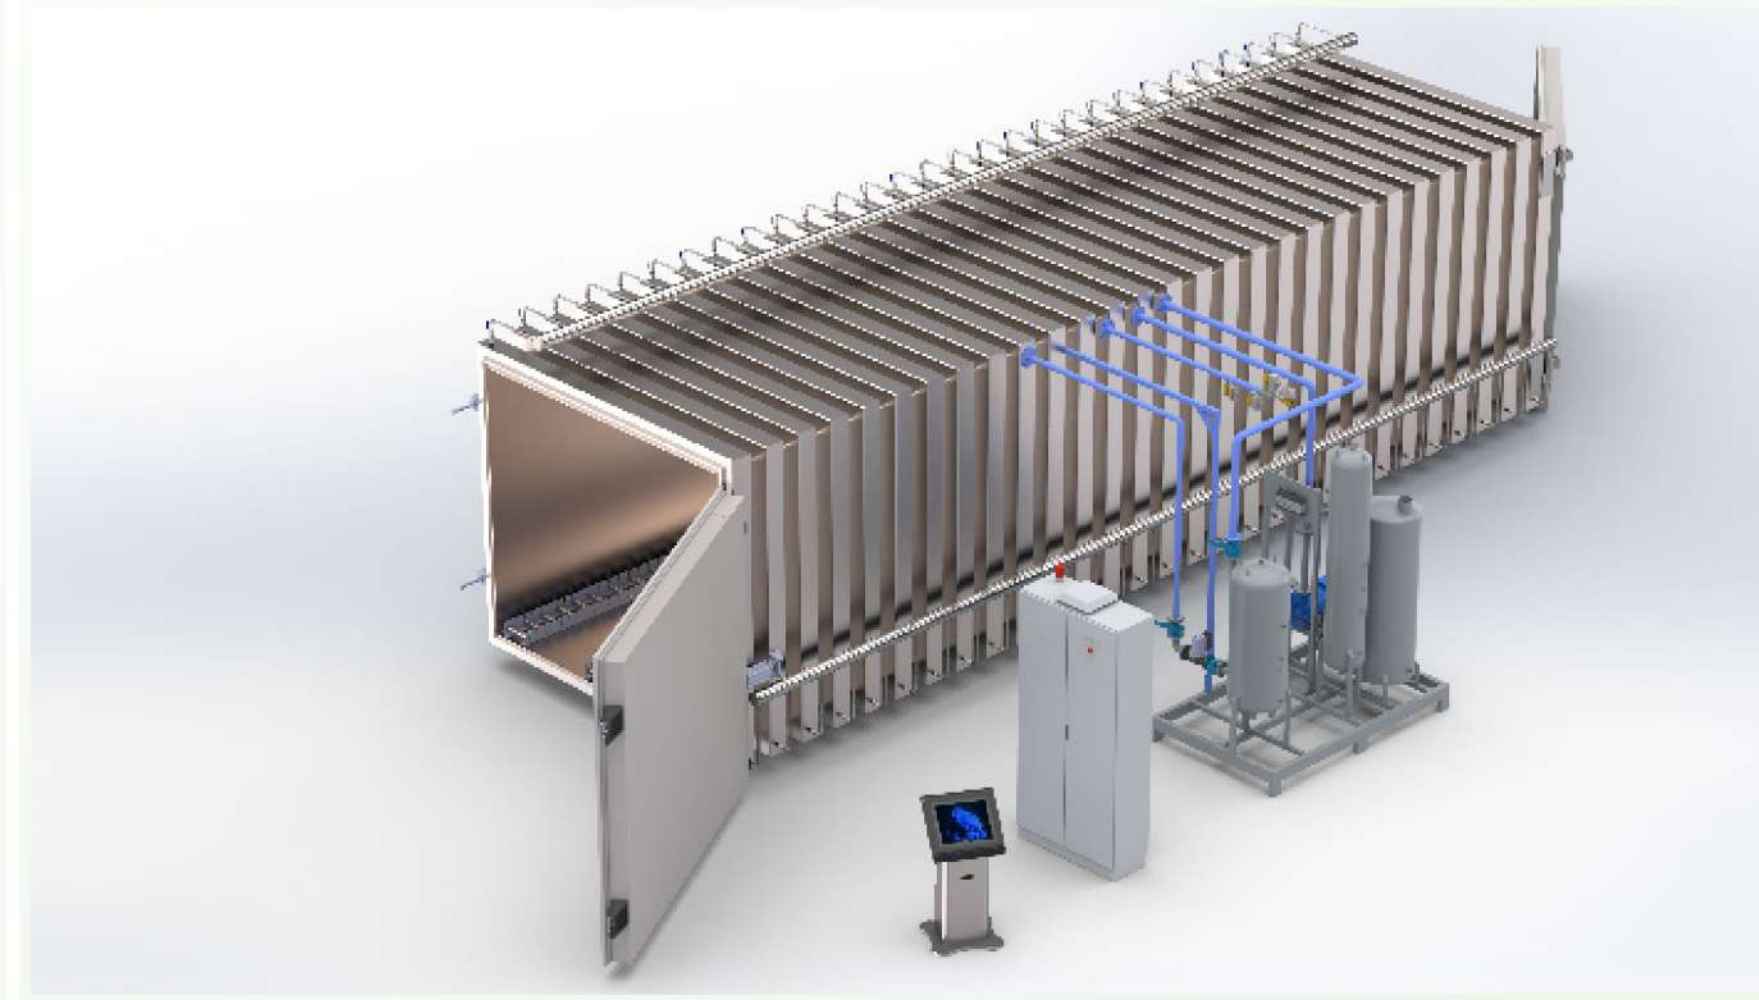

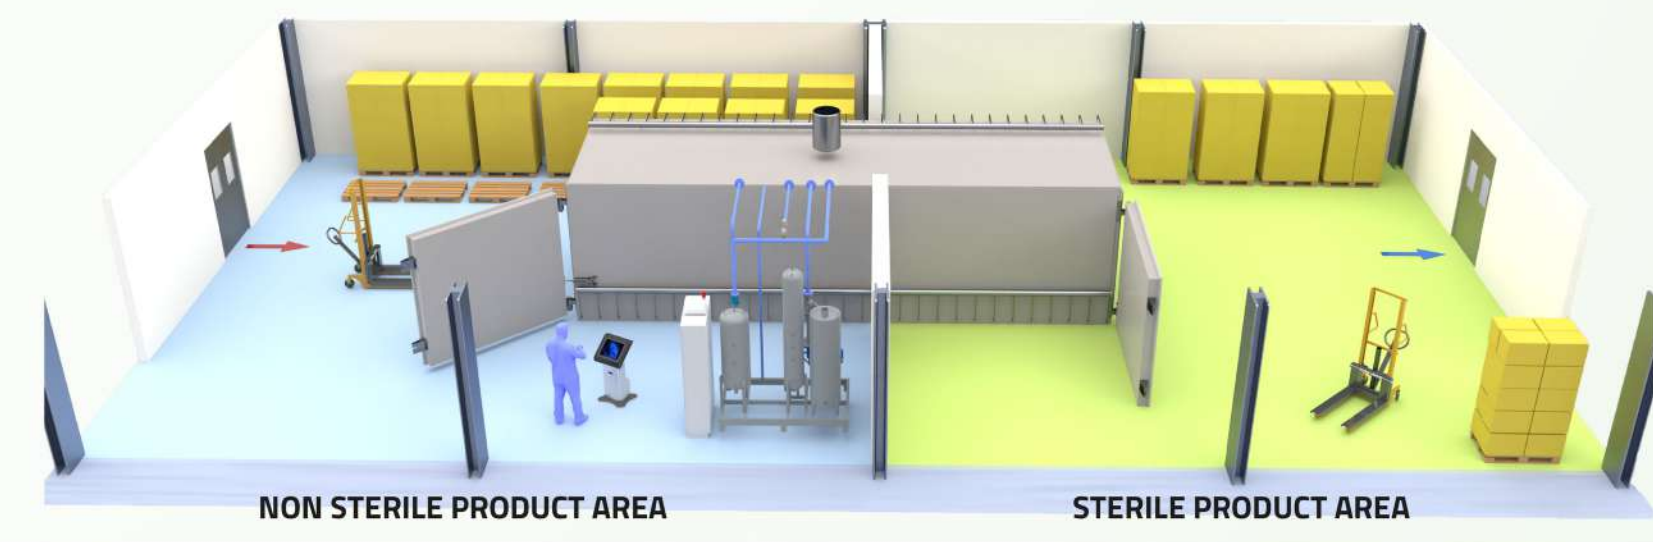

**Absorbable  
&  
Non-Absorbable  
Sutures**

All kinds of Medical Materials, etc.

Ethylene Oxide Sterilization Devices with  
**Under-Vacuum Working** Principle

## TEKNOMAR BRAND ETO C 1445 INDUSTRIAL ETHYLENE OXIDE STERILIZATION DEVICE

**Preconditioning, Gassing, Aeration In One Chamber**

Dimensioning of the devices that we produce is in m<sup>3</sup> or Euro pallet (80x120cm). E.g.; It is designed and produced in line with your needs, starting from 1m<sup>3</sup> to 120m<sup>3</sup> as  
10m<sup>3</sup>=4 Euro Pallets,  
20m<sup>3</sup> = 8 Euro pallets.

## ETO C 1445 USAGE AREAS

- All kinds of Medical Materials
- Absorbable and Non-Absorbable Sutures
  - Medical Textile Products
  - Disposable Medical Products
